Consulting services are provided in all areas of Human Resources, including but not limited to strategy, employment law, recruiting and selection, employee relations, performance and compensation management, training employee development, benefits, and payroll. As a client, you will receive the benefit of experienced and knowledgeable HR executives, who will play a very "hands-on" role in resolving issues and meeting your needs. Being Technology firm we understand the IT / ITeS firms Technical skill requirements.

We understand that many small to medium sized companies neither have nor need a full-time HR Department. Real World HR Consulting can add value to your organization by assisting you with solving complex human resources issues requiring outside senior level HR expertise. By outsourcing projects and tasks to experienced HR specialists, you ensure quality, cost effective solutions that will increase productivity and positively impact the bottom line. In addition, our flexible pricing model allows you to avoid taking on full-time commitments the business may not yet be ready for. Our clients have the benefit of experienced HR executives to interface with both management and employees on all human resources related issues as needed, for substantially less than providing the same services in-house with full time employees. This is an ideal solution for organizations that have human resources needs on less than a full-time basis or even for larger organizations that have situations where staff or expertise is missing for timely accomplishment - or when they are just too busy to "get to" that project.

- We help small and medium sized business owners.
- We provide practical and real world solutions.
- We strategically align your people goals with our business goals.
- We don't waster your time with a bulk of rarely needed HR skills.
- We provide our services around your business needs and budget.

Staffing Solutions

We understand fitting right skills at right budget is key for any firm's success. We provide affordable staffing solutions. Our Army of HR's are skilled to understand client's need. We support Technical, Managerial and Executive skills for Corporates, Large, Medium and even smaller firm requirements.

Permanent Hiring

Major recruitment needs of companies are on a permanent basis. At STARNEL we believe in finding the right person who not only suits the prescribed role but also fits into the company's overall picture. Our methodical Executive search process has been proved to be one of the best techniques for this segment. Based on the given brief, STARNEL conducts a search for top-notch candidates from its rich database, pre-screens him/her, sets up interviews and continues the process till the client organization finds the right individual.

Contract Hiring

In the increasingly competitive scenario, we offer an innovative service. Our clients can hire associates first as temporary employees for a trial period. Subsequent to their satisfactory performance, the client can choose to absorb the temporary worker into its permanent fold. This is an effective business strategy that enables companies to extensively 'test' the abilities of the candidate and later absorb him/her. Similarly the employee will also get a feel of the organizational environment and hence a mutual agreement after the trail is beneficial to both.

Staff's on Demand

Businesses often cannot afford to have full-time personnel for shorter duration work. The flexibility and scalability of outsourced Consultants guarantees the depth of specialized experience when you need it, without the constant overhead. These include HR's, Recruiters, Accountants, Lawyers Doctors, Nurses, Specialized skills and other support staff.

Executive Search

Growing Companies at every point of time need senior level management. Getting the right candidates to handle the growth and give directions, there is a need of quality executives search. Executive placement serves clients in

a manner they desire and deserve. We have a team of inspirational group of professionals who are experts in their core areas. They work with total commitment to quality services. Most of the recruiters possess technical background with deep knowledge and experience, which helps in understanding our client requirement and hunt the right talent as per client technical specification.

Flexi Staffing

The present day HR market is witnessing some vibrant changes and Flexi Staffing is one of them. Flexi Staffing also referred to as Contract Staffing enables companies to get their work done without the cumbersome process of recruiting, training and the liability associated with being the employer. STARNEL provides clients with suitable manpower to match their short-term or temporary requirements.

Payroll Processing

Receiving payroll data from the company, inputting data and producing pay slips. This service includes producing standard payroll reports.

Payment Services

Salaries to the employees, to the Vendors, authorities (Tax Dept, PF, ESI) & to insurance companies.
